Dear Silas / Dan

I would like to take this opportunity to personally thank you very much for your hard work and support towards the 2010 World Cup Fan Park at Queen Square. This month-long event could not have been staged without the tremendous efforts of a number of teams and individuals drawn from across the city, and your contribution was hugely significant in ensuring that the event was successful.

39 matches in total were screened at the Fan Park and an overwhelming 75,000 people came through the gates over the course of the tournament. This is a fantastic achievement and has proved that there is much demand for an exciting event such as the World Cup to be screened in a public space in Bristol city centre.

Mobilising the resources for this event at short notice and responding to the changing demands of our colleagues in the Avon and Somerset Police cannot have been easy and I very much appreciate your efforts and good humour throughout the tournament.

Once again, my sincere thanks for your enthusiasm and commitment.

Kind regards,

Stephen Wray
